

Association for Dental Education in Europe

This is to certify that the Faculty Members and the Students of

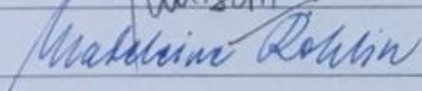

Selcuk Universitesi, Dishekimligi Fakultesi, Kampus

completed a self-assessment of their curriculum followed by a comprehensive review, carried out by a team of international peers from other European centres of dental education. This was part of the DentEd and DentEdEvolves Thematic Network Project, under the auspices of the Association for Dental Education in Europe (ADEE).

The Project was funded by the European Union's Directorate on Education and Culture. DentEd & DentEdEvolves were designed to promote convergence towards the highest standards in undergraduate dental and stomatological education through continuous quality enhancement and by sharing and exchanging innovations and best practices with peer educators.

President of ADEE

Secretary General of ADEE

Co-ordinator of DentEd TNP
